SUMMARY

Computer Science student with practical experience in frontend web development. I have worked with HTML, CSS, JavaScript, React.js, and Bootstrap to build simple and responsive websites. I also have basic knowledge of Node.js and MongoDB, and good understanding of Python programming.

EXPERIENCE

Web Development Intern Sparks to Idea

May 2025 – July 2025

- Developed frontend components using HTML, CSS, JavaScript, and Bootstrap.
- Assisted in building and documenting web-based applications.
- Prepared project reports and presentations.
- Participated in technical workshops on frontend and full-stack development.

SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6), React.js, Bootstrap, Tailwind
Backend	Node.js (Basics), MongoDB (Basics), REST API Basics
Programming	Python
Tools	Git, GitHub, VS Code, Canva, Figma, CNC GRBL Software, Gemini AI

PROJECTS

My Personal Helper – Web Application HTML, CSS, JavaScript, Bootstrap

- Built a web platform to connect local service providers with users.
- Created responsive and user-friendly interfaces.
- Designed basic system flow for backend integration.
- Focused on simple navigation and usability.

Food Waste Management System – Web Application HTML, CSS, JavaScript, Bootstrap, Node.js, MongoDB

- Developed a system to help manage and reduce food waste.
- Created responsive frontend pages.
- Planned application structure for backend support.
- Improved data handling and user experience.

Coffee Shop Nearby – Frontend Project HTML, CSS, JavaScript

- Designed a responsive website to find nearby coffee shops.
- Optimized layout for mobile and desktop.
- Added interactive maps with location support.

CERTIFICATIONS

CNC Sketch Machine Project – Innovation IoT Lab (Presented at Innovation Project Exhibition)

EDUCATION

B.Tech – Computer Science

2023 – 2027

JIET Institution of Jodhpur, Rajasthan
